

Fast & Fun Collagraph Printmaking with Donna Buchan

Collagraphs are an exciting way to create prints without a press by using a combination of two art forms - collage and printmaking. *This workshop consists of two consecutive three-hour sessions.*

Week 1 – Create a textured printing plate using easy-to-find materials like cardboard, seeds, crumpled paper, string, craft supplies and found objects. You can plan your design in advance or create organically – it’s up to you.

Week 2 – Print your design by hand using various methods, with a range of colours and papers. You’ll be amazed at the variety of results you can produce from just one plate. Even your plate will be a work of art!

You’ll leave with a number of unique prints and enough information to inspire your continued creative path. Due to drying time constraints, some projects will not be dry when the class is finished – please be prepared to transport wet projects flat.

All art materials are supplied; however, please bring an apron or suitable clothing, paper towel or lint-free rags, a large mixing palette or tear-off palette, and 2 water containers (1 litre ice cream bucket or similar). Bring your own textured materials if you like, or choose from my vast assortment.

Optional: for those wishing to use reference material or pre-plan an image, printing plate size is 8x10”.

Two 3-hour sessions, \$75.00 per person, includes materials. Suitable for any level of experience, ages 16 & up. Small classes ensure you get dedicated attention while learning at your own pace. Pre-registration and pre-payment required.

To register or get additional details, please call Donna 705-788-9592 or email me at joyfulpaints@gmail.com
